MEDICAL ASSISTING - AAS

GUIDED PATHWAY: MEDICAL ASSISTANT

For more information, visit www.laredo.edu/ and your academic advisor.

Program Description: The course sequence listed below is for students interested in pursuing an Associate of Applied Science as a Medical Assistant (AAS). It does not represent a contract, nor does it guarantee course availability. Following this pathway will help you earn an AAS degree as a Medical Assistant. For official degree requirements, visit the Medical Assistant, Associate of Applied Science (laredo.edu) webpage.

Medical Assistant classes in the AAS degree prepare the student to perform patient-centered assessments, assist in the examination of patients, perform treatments directed by the physician, and perform common laboratory procedures in ambulatory settings, such as physician offices, clinics, and group practices. The Medical Assistant Program (MDCA) offers an Associate of Applied Science (AAS) Degree (D). Students may complete 15 hours of academic courses, receive an Associate of Applied Science degree¹, and sit for the national certification examination.

TOTAL SEMESTER CREDIT HOURS: 14 AAS DEGREE MINIMUM: 60 SEMESTER CREDIT HOURS/PATHWAY TOTAL: 60 SEMESTER CREDIT HOURS

- Students must earn at least 25% of the credit hours (15 hours) required for graduation through instruction by Laredo College awarding the degree. (C) This course counts for the Core Curriculum at any public college or university in Texas.

Certification and Licensure Information

The Medical Assistant program requires that the student sit for the American Medical Certification Association (AMCA) exam in order to achieve the Clinical Medical Assistant Certification (CMAC) at the end of the fourth semester (AAS only).

Exams are administered on campus as Laredo College is designated as a testing site for AMCA. Testing is held at the Lerma Pena Building in Room 227. Exams are proctored by the testing center personnel. Questions regarding eligibility for certification as a Medical Assistant should be directed to the American Medical Certification Association at AMCA@AMCAexams.com

Career Information

Common Job Titles: Certified Medical Assistant (CMA)

Regional Labor Market Information

According to the United States Bureau of Labor Statistics, employment of medical assistants is projected to grow 23 percent from 2018 to 2028. The growth of the aging baby-boom population will continue to increase demand for preventive medical services, which are often provided by physicians. As a result, physicians will hire more assistants to perform routine administrative and clinical duties, allowing the physicians to see more patients.

Medical assistants typically do the following:

- Record patient history and personal information
- Measure vital signs, such as blood pressure
- Help physicians with patient examinations
- Give patients injections or medications as directed by physicians and as permitted by state law
- Schedule patient appointments
- Prepare blood samples for laboratory tests
- Perform Electrocardiography
- Enter patient information into medical records

Career and labor market research tools

O*Net Online - Summary report for Medical Assistants

Career Resources: The Laredo College Advising Center's website provides information on career exploration and employment. The Center is dedicated to creating professional leaders in our community by offering services such as soft skill development, workplace readiness, job opportunities, internships, and much more. For more information, visit their website. Students are encouraged to consult with their area of study advisor for additional career assistance. The above information is provided as a guide and reference tool for occupations related to this program. This is not a guarantee of job placement in any of these occupations after successful completion of an LC program. The common job titles listed are representative titles and are provided for career research. These are not the only occupations possible in this area of study.

Transfer Information

The Associate of Applied Science in Medical Assistant prepares students to directly enter the workforce with the necessary skills and credentials. However, students graduating with a Level I have higher education opportunities.

Transfer Guides: The universities listed here do not constitute a Laredo College endorsement. Transfer course evaluations and determination of which courses will count toward a Bachelor's degree are made by the receiving transfer institution.
