The Laredo College Board of Trustees, administration, and Health and Safety Operations Center (HSOC) have been closely monitoring, and planning for, the omicron variant and the surge of COVID-19 related cases since last year. Hence, we had anticipated positions that Laredo College is prepared and planning accordingly by not increasing our face-to-face course offerings and having more online and hybrid course options.

The Department of Homeland Security grants LC with funds to create a civics program

The Community Education Division is thrilled to announce that the program has been found to have the requisite qualified faculty, curriculum, financial resources to support its mission and students, and adequate support services needed to assist students in reaching their educational goals.

Receiving accreditation status from CAPTE indicates that the program has satisfied student outcomes and augments the program's standing and reputation. This process is important for current and future students since graduation from a CAPTE-accredited program is required for students to be eligible to sit for the PTA Program achieving reaccreditation for 10 additional years. The PTA Program Director Dr. Esmeralda Vargas noted that there are 27 PTA programs in Texas. The PTA Program at Laredo College has three dedicated faculty full-time faculty and two adjunct faculty with extensive years of experience. The PTA Program Director needs to assist students in reaching their educational goals.

Students interested in applying to the program must meet pre-requisite course requirements before applying, earning a “C” or higher in these courses and a minimum GPA of 2.5. Students must also complete 40 hours of volunteer work shadowing a physical therapist or physical therapist assistant in any setting. Career prospects for students in this field are wide-ranging. With graduate working a variety of settings, including hospital, skilled nursing, inpatient rehab settings, outpatient rehab clinics, private practices, home health and public school districts.

LC PTA Program earns 10-year reaccreditation

The Laredo College Physical Therapist Assistant (PTA) Program recently received its 10-year reaccreditation from the Commission on Accreditation in Physical Therapy Education (CAPTE), reinforcing its rigorous academic standards. CAPTE is an accrediting agency nationally recognized by the U.S. Department of Education and the Council of Higher Education Accrediting. It is the only agency that grants accreditation to entry-level physical therapist and physical therapist assistant programs. Educational programs are accredited for a maximum of 10 years if the program meets the quality set of standards established by CAPTE. Accreditation requires that programs conduct an extensive self-evaluation that includes incorporating methods of self-improvement that will enhance the program.
