

## Transcript for the Intro to LockDown Browser Video by time frame

0:00 if you're watching this year probably required to use Respondus lockdown  
0:05 browser for an online exam  
0:07 lockdown browser is a different kind of browser  
0:10 well taking an exam you can't print use other applications visit other web sites  
0:15 you can even search the internet for answers  
0:18 I know it takes all the fun out of online tests  
0:22 but here's the good thing your classmates can't do those things either  
0:26 so it's just your brain against their brain a level playing field  
0:30 your instructor will provide a link for downloading and installing lockdown  
0:34 browser  
0:34 when you started lockdown browser might warn you that certain applications have  
0:39 to be shut down before you continue:  
0:41 like screen capture programs instant messaging  
0:44 Skype pretty much anything that lets you communicate with the outside world  
0:48 you can close those applications yourself or let lockdown browser do it  
0:52 for you  
0:53 the browser will then go to the login page for your online course  
0:57 login like you normally do and locate the exam that requires lockdown browser  
1:02 remember after the exam starts you won't be able to do other things on your  
1:06 computer and tell you finish the exam  
1:09 when you're done just exit lockdown browser and you'll be all set  
1:13 your instructor might also require you to use a webcam with lockdown browser  
1:17 this part is sometimes called respond this monitor  
1:20 but just think if it is a webcam for lockdown browser the nice thing about  
1:24 the web cam feature is that it lets you take exams from the comfort of your own  
1:28 home  
1:29 or from the other side of the world plus you can take exams at any time of the  
1:34 day  
1:34 or night the webcam will record what happens during the exam and the  
1:38 instructor can review it afterward  
1:40 so if an exam requires you to use lockdown browser  
1:44 and a webcam just start lockdown browser and locate the exam  
1:48 before the exam starts you'll be guided through a check to make sure your webcam  
1:52 is running properly  
1:53 additional steps might also be required by your instructor  
1:56 such as showing your ID or taking a video of your surrounding area  
2:00 once the exam starts don't give the webcam another thought just focus on  
2:05 that test you stayed up  
2:07 all night studying for when the exam is finished  
2:10 and you submit for grading the webcam was shut off automatically  
2:14 that's pretty much it now take a deep breath  
2:18 and good luck
